

# INDCOOL REFRIGERATORS

2026

*Made in India Made for Indians*

# About INDcool

**Proudly Indian. Globally Inspired.**

Founded in 2004 by Mr. Dhananjai Singh under the visionary guidance of Comtech Enterprises Pvt Ltd, **INDcool** is a trusted Indian appliance brand committed to delivering reliable, energy-efficient, and affordable comfort solutions.

Designed specifically for Indian conditions, **INDcool** appliances are engineered to perform in high temperatures, fluctuating power supply, space limitations, and diverse budgets—without compromising on quality or efficiency.

Driven by the ethos “Made in India, Made for Indians,” we combine modern, high-tech manufacturing with eco-friendly design to reduce import dependence and promote sustainable living. Today, **INDcool** products serve homes, offices, institutions, and government organizations across urban, semi-urban, and rural India.

With a strong focus on innovation, durability, and customer satisfaction, **INDcool** delivers comfort that is practical, responsible, and built to last.

INDcool — Smart Comfort. Sustainable Future.

## Our Vision

To be the customer's first choice in appliances.

## Our Mission

To deliver high-quality appliances supported by reliable after-sales service, creating lasting value through trust, shared growth, and total customer satisfaction—while recognizing and rewarding the people who make our success possible.

# Our Esteemed Customers

**DIRECT COOLING TECHNOLOGY WITH INDcool**

## With Energy Efficiency Compressor.

**FIX SPEED Compressor**

**FIX SPEED** Compressor in **INDcool** refrigerators ensures high durability while maintaining low energy consumption and noise levels.

The refrigerator's smart cooling system enables the fridge to cool faster while consuming less energy. Additionally, the Fix Speed compressor has a special fan to reduce noise levels during start-up, making the refrigerator four times quieter during operation.

### BENEFITS

- Faster cooling.
- Lower energy consumption.
- Four times quieter operation.

**IonGuard**

Did you know that unpleasant odour and bacteria inside the fridge create positive ions?

## Protect your food against bacteria with IonGuard

IonGuard technology produces negative ions which neutralise the bacteria, viruses and particles that cause unpleasant odour inside the fridge. IonGuard's anti-bacterial effect helps simulate the freshness of nature in your refrigerator.

### BENEFITS

- The circulated air in the refrigerator is cleaned, which helps food stay fresh for a longer period.

**Fresh Guard**

## Goodbye bad odour. Hello Fresh Guard

INDcool refrigerators come with a specially coated filter and UV LEDs that remove 90 percent of odour. Fresh Guard runs frequently and over shorter periods, which makes it more energy efficient in comparison to other refrigerators.

### BENEFITS

- Reduces bad odour within the refrigerator to keep the smell fresh.

KEEP FRUITS AND  
VEGETABLES  
FRESH UP TO  
MORE THAN  
YOU THINK:

-  **Store Fresh+**
-  **NeoFrost Dual Cooling Technology**
-  **Active Fresh Blue Light**

StoreFresh+ technology keeps fruits and vegetables fresh for longer by minimising temperature fluctuation inside the crisper and maintaining precise moisture levels, which protects them from humidity loss.

NeoFrost Dual Cooling Technology uses two separate cooling circuits to blow air into the freezer and fridge compartments, ensuring that cool air is distributed evenly throughout the refrigerator.

Active Fresh Blue Light technology simulates natural lighting conditions inside the refrigerator to preserve Vitamin C in fruits and vegetables by continuing the process of Photosynthesis inside.

- BENEFITS**
- Fruits and vegetables stay fresh
  - Faster cooling
  - Level of temperature and humidity is maintained
  - Keeps food in the fridge from freezing
  - Prevents mixing of odours between compartments
  - Preserves Vitamin C intensity in fruits and vegetables
  - Maintains natural flavours and nutritional elements

# DIRECT COOL REFRIGERATORS

## Active Fresh Blue Light

Inspired by sunlight to help retain Vitamin C in fruits and vegetables.

The powerful Active Fresh Blue Light technology carefully simulates natural lighting conditions inside the crisper. This helps your fruits and vegetables continue the process of Photosynthesis long after they have been placed there.

### BENEFITS

- Protects Vitamin C intensity in fruits and vegetables
- Maintains natural flavours and other nutritional elements

## FreshBox

Locks in humidity to keep fruits and vegetables fresh.

A large-sized crisper to store your fruits and vegetables, with a switch that lets you control moisture levels and stabilise temperature fluctuation inside. This prevents the stored fruits and vegetables from drying up.

### BENEFITS

Atmosphere regulator which prevents vegetables from perishing easily.

**3** 3-STAR ENERGY RATING

**10** 10-YEAR COMPRESSOR WARRANTY\*

**2** 2-YEAR COMPREHENSIVE WARRANTY\*

### FlexLift

Door racks that can be adjusted to your preferred height.

### Adjustable Toughened Glass Shelves

Withstand the weight of heavy pots and bowls, making storage easier.

### EasyDivide

Helps you segregate fruits and vegetables in the crisper.

### Top Box

A spacious storage basket on top of the refrigerator (Top Box is an accessory to be bought separately).

### Advanced Carbon Filter

Neutralises bad odour molecules inside the refrigerator.

### SafeBox

Additional door rack with a flap to keep small things secure.

### Base Drawer

A dedicated section at the bottom of the refrigerator for storing products.

### Linish

- Premium Linish (Brushed Silver) Finish
- 1&2 Star BEE Rating – Saves Energy & Cost
- Direct Cool Technology for Consistent Cooling
- Toughened Glass Shelves for Heavy Storage
- Large 12L Vegetable Crisper with Honeycomb Cover
- Manual Temperature Control
- Eco-Friendly R600a Refrigerant
- Stabilizer-Free Operation
- Antibacterial Gasket, Lockable Door, Chrome Handle
- Clean Back Design for Safety
- 10-Year Compressor Warranty

### Winora

- 1 & 2 Star BEE energy rating for long-term savings
- Direct Cool technology for consistent cooling
- Elegant Winora finish in a rich wine tone
- Toughened glass shelves for heavy-duty use
- Spacious vegetable crisper with optimal moisture control
- Bottle racks and adjustable door shelves
- Eco-friendly refrigerant with low environmental impact
- Works without stabilizer under voltage fluctuations
- Compact and ideal for kitchens, offices, or small spaces

### Florared

- 1 & 2 Star BEE rating for energy-efficient performance
- Direct Cool technology for fast and uniform cooling
- Bold and stylish Florared finish with floral aesthetics
- Toughened glass shelves support heavy utensils
- Large vegetable crisper with humidity control
- Dedicated bottle racks and door compartments
- Eco-friendly refrigerant with low global warming impact
- Stabilizer-free operation for voltage protection
- Ideal for small families, apartments, and office use

### Aquaflora

- Sleek for compact homes and modern lifestyles
- Certified 1 & 2 star energy efficiency to keep your electricity bills in check
- Fast and consistent cooling with low-maintenance Direct Cool technology
- Striking Blue Flower design that elevates your kitchen's aesthetic
- Space-saving single door construction that fits into tight spaces with ease
- Toughened glass shelves engineered to hold heavy cookware confidently
- Large vegetable crisper designed to lock in freshness and moisture
- Smartly arranged bottle and utility racks to make every inch count
- High-performance compressor built for rapid cooling and long-lasting reliability
- Uses eco-conscious refrigerant for a smaller environmental footprint
- Operates smoothly without a stabilizer, even in areas with voltage variation
- Anti-bacterial door gasket that keeps food safer and the interior fresher

# MINI BAR REFRIGERATORS

## MINI BAR 50L

- 50L compact capacity
- Direct cooling technology
- Eco-friendly R600a refrigerant
- Product Type: DC Single Door Minibar
- Capacity: 50 Litres
- Star Rating: 1 Star
- Number of Doors: 1
- Noise Level: 52 dB
- Rated Voltage: 220–240 V, 50 Hz
- Operating Voltage Range: 160–260 V, 50 Hz
- Power Cord: 1.5 m, Standard 3-Pin Plug
- Refrigerant: R600a (18 g)
- Compressor Type: Reciprocating
- Compressor Speed: Fixed Speed

## MINI BAR 100L

- Product Type: DC Single Door Minibar
- Capacity: 100 Litres
- Star Rating: 1 Star
- Number of Doors: 1
- Climate Class: T1
- Noise Level: 52 dB
- Rated Voltage: 220–240 V, 50 Hz
- Operating Voltage Range: 160–260 V, 50 Hz
- Power Cord: 1.5 m, Standard 3-Pin Plug
- Refrigerant: R600a (18 g)
- Compressor Type: Reciprocating
- Compressor Speed: Fixed Speed
